

VIGIL

The living record.

EU DPP is becoming **mandatory**. Currently it's merely a **burden**, the potential **opportunity** behind it remains **untapped**

- The data required for DPP is scattered across internal systems
- Suppliers hold the missing pieces - material origins, CO₂ footprints, component specs
- DPP never pays, never ends - pure cost, maintained forever under threat of fines

OPPORTUNITIES

BRAND TRUST

Turn a mandated compliance into marketing advantage

VERIFY PROCUREMENT ACCESS

Buyers increasingly require verified supplier and product data

SECOND HAND MARKET

Boosting Transparency and Credibility of Second Hand Electronic Devices

VALUE PROPOSITION

- Automatic ESPR Compliance
- Customer Fidelization
- Supply Chain Mapping
- Second Hand Market Monetization

ADD-ONS

- Product LifeCycle Monitoring
- Safe Data Hosting

One SaaS platform, **two products.**

STATIC DPP

- Works for any regulated product
- Cheap, Fast and Automatic

DYNAMIC DPP

- Subdivision passports per component
- Active Product Lifecycle Monitoring
- Resale / Certification Value Enablement

PLATFORM — BOTH TIERS

AI data-gap assessment • auto-drafted supplier requests • CO₂ / sustainability analytics

Competitor Analysis

VIGIL — TEAM D

STRENGTHS

- Dual-market strategy
- Turns cost into asset
- Frictionless integration

WEAKNESSES

- Two sales motions at once
- Can't force supplier compliance

OPPORTUNITIES

- ESPR deadlines force budget
- SME "middle ground" gap

THREATS

- Lack of Cryptographic Privacy
- SME Price Rivalry

Product Offering

- Static Tier (SME Compliance)
- Dynamic Tier (Enterprise OEMs)

Pricing Strategy

- Static Tier - Minimal entry barrier
- Dynamic Tier - Median entry
- Dynamic Enterprise Tier - High-margin

Place & Distribution

- Direct Self-Serve - Web Portal
- ABM pipeline for major electronics OEMs
- Strategic partnerships(Deloitte, Pwc)

Promotion Channels

- Downstream suppliers integration
- LinkedIn Ads
- Direct B2B Communication

TARGET CAPTURE

2%

Of the smart electronics market
— 100 companies in total.

CHANNEL

Direct outreach

Via LinkedIn and paid promotion
advertisement.

YEAR-ONE TARGET

0.04%

Of the European smart-
electronics market.
